Mississippi Wholesale Nurseries

As a retail garden center owner or manager, you can buy most of the plants you need right here in Mississippi. Your customers like to know they are buying the highest quality Mississippi-grown nursery products.

How to use this guide:

Find the category of the plants you are looking for, such as "Annuals." Listed under the "Annuals" heading are the nurseries that grow annual bedding plants, along with the

Mississippi Sod Producers

There are more than 50 commercial sod producers in Mississippi who are growing approximately 5,000 acres of quality turf grasses for vegetative establishment of home lawns, athletic fields, parks, school playgrounds, industrial and business sites, highway rights-of-way, erosion and reclamation sites, and anywhere else managed turf is desirable. Bermuda grass, zoysia grass, centipede grass, and St. Augustine grass are the four major warm-season turf species being grown with several cultivars or varieties of each species available.

This quick reference guide is designed to help you locate a producer who can provide you with the grasses and services you need to meet your turf establishment demands should it be sod for a lawn, sprigs for an athletic field, large rolls, etc.

How to use this guide:

Find the category of sod you are looking for (such as Bermuda Grass). Listed under the Bermuda Grass heading are the producers that grow this sod. Additionally, the regional listing lists producers alphabetically by business name followed by a contact person with addresses, telephone numbers, and service codes.

* Asterisk by letter indicates certified turf available.

If you have additions or suggestions for improvement to this guide please contact **Dr. Wayne Wells**, *Extension Turfgrass Specialist*, Department of Plant & Soil Sciences, Mail Stop 9555, Mississippi State, MS 39762, 662-325-2331 or e-mail to wwells@ext.msstate.edu
