## 2017 Biennial Campus Alcohol and Drug Report

# INFORMATION FOR THE MISSISSIPPI STATE UNIVERSITY COMMUNITY

In accordance with the requirements of the Drug Free Schools and Campuses Act of 1989 and the Campus Security Act of 1990, institutions must publish a biennial report containing information on campus alcohol and drug policies, programs and standards related to its institution. Mississippi State University is committed to providing a campus environment free from the unlawful manufacture, distribution, dispensation, possession, or use of drugs and/or alcohol in order to allow all to attend and work at the highest levels of academia. High risk behaviors related to drug and alcohol abuse can lead to decreased productivity, serious health problems, strained social interactions, and impaired learning. An academic community is harmed in many ways by the abuse of alcohol and the use of other drugs. In an effort to combat the effects of drug and alcohol abuse, Mississippi State University offers alcohol and drug abuse programs from a variety of departments including the Dean of Students' Office, Student Health Center, Student Counseling Center, Housing and Residence Life, Human Resources, Health Promotion and Wellness, and the Collegiate Recovery Center.

The material provided herein includes the federally mandated description of MSU's substance abuse prevention and education efforts for the 2015-16 and 2016-17 academic years (including Summer 2016).

## STANDARDS OF CONDUCT FOR STUDENTS

Mississippi State University is committed to a healthy, safe environment for learning, living, and working. Students, faculty, staff, and guests are expected to comply with all federal, state, and local laws as well as University rules and regulations concerning alcoholic beverages and other drugs. Specifically, the University prohibits the unlawful sale, possession, consumption, use, or distribution of alcohol or drugs in or on University property or as part of any of its activities. MSU considers as drugs all substances deemed as drugs by the State of Mississippi. This includes, but is not limited to, unauthorized prescription drugs, marijuana, cocaine, cocaine derivatives, heroin, amphetamines, barbiturates, LSD, PCP, tranquilizers, inhalants, and associated paraphernalia.

## CODE OF STUDENT CONDUCT

MSU students are governed by the Code of Student Conduct (OP 91.100 -- [policies.msstate.edu/policypdfs/91100.pdf](http://policies.msstate.edu/policypdfs/91100.pdf)). The Code of Student Conduct is designed to develop self-reliance to form desirable and acceptable habits of conduct among students at MSU. Under the Code of Student Conduct, students are recognized as adults who are expected to obey the

law and the rules and regulations of the university. Students are also expected to take personal responsibility for their conduct, to respect the rights of others, and to have regard for the preservation of state and university property, as well as the private property of others. Those found responsible for violating the law or the rules and regulations of the university may receive a maximum sanction of expulsion from MSU.

The Code of Student Conduct applies to all students while present on campus or at a University facility. It also applies to all student conduct that occurs in connection with a University program or activity, regardless of the location. Additionally, under the Code of Student Conduct, MSU reserves the right to take appropriate action, up to and including expulsion, when, in the University's judgment, a student's conduct off-campus and not connected to any University program or activity: (1) indicates that the student may pose a danger to him or herself or to others; or (2) the conduct has a negative impact on the University community or the University's mission.

The process for adjudicating a violation of the Code of Student Conduct is separate and independent of any adjudication of a violation of federal, state, and local law.

Examples (but not an exclusive list) of misconduct that may be subject to disciplinary action under the Code of Conduct include:

- Unlawful sale, possession, consumption, use, or distribution of alcohol (including beer and wine);
- Assisting or cooperating with a violation of the Code of Student Conduct or other university rules and regulations by another or others;
- Failure to comply with directions of any university official (whether the request is by mail, email, telephone, or in person) when that official has identified him or herself and is acting within the course and scope of their duties. Cooperation includes, but is not limited to, responding to requests for conferences on matters pertaining to the student at the university and/or presentation of university identification;
- Disorderly Conduct or Disruptive Behavior that includes violent, noisy, or drunken on university controlled property or while representing the university or attending a university function, or any action that interferes with or attempts to disrupt the learning environment (See also OP 91-109 and AOP 10.08); and
- Unlawful sale, possession, use, or distribution of illegal drugs;

## **AUTHORITY**

Bylaws and Policies of the Board of Trustees of State Institutions of Higher Learning charge the President of Mississippi State  
**4 / BIENNIAL CAMPUS ALCOHOL AND DRUG REPORT 2017**

University with the responsibility of maintaining "appropriate standards of conduct of students" and further authorizes him or her "to expel, dismiss, suspend, and place limitations on continued attendance and to levy penalties for disciplinary violations...." In accordance with this responsibility, the aim of disciplinary action is the redirection of student behavior toward the achievement of academic and social goals. The President has delegated this function to the Vice President for Student Affairs, who in turn has delegated it to the Dean of Students. It is the responsibility of the Dean of Students to initiate, implement, and supervise the disciplinary process for students.

The Dean of Students' Office may be assisted in the disciplinary determinations by a series of councils and boards that hear cases assigned to them. The involvement of peer groups in such decisions is consistent with the university's educational goals and its practice of student participation in institutional governance.

In cases involving alleged sexual misconduct, investigation and disciplinary procedures are governed by the Sexual Misconduct Policy, OP 03.04. To the extent the Sexual Misconduct Policy contains additional or different rules or requirements, those requirements will control in cases of alleged sexual misconduct.

## **DISCIPLINARY PROCEDURES**

Disciplinary procedures may be initiated on individual or organizational behavior upon receipt and analysis of an official incident report or valid complaint. The Dean of Students' Office will investigate to determine if there is sufficient cause to proceed with disciplinary action. Should sufficient cause be determined, the Dean of Students' Office may conduct an administrative hearing, assign the case to be mediated, or assign the case to a student conduct board. Some examples of the boards are:

- a. The Greek Conduct Board, original jurisdiction and appeal board for Greek organizations
- b. The Student Conduct Board, original jurisdiction and appeal board for students
- c. An Administrative Board, original jurisdiction, sexual misconduct, and appeal board
- d. Mediation - by students or administrators trained by the Dean of Students' Office

## **CONDUCT BOARD NOTIFICATION PROCESS**

The student, student group, or student organization accused shall be notified in writing or email by the Dean of Students' Office of the specific charges, the board assigned to hear the charges, the time and place of the hearing, and the names

of witnesses who are expected to present information. The notification will inform the accused student, student group or student organization of the following in regards to the hearing:

- a. That he/she may bring any witness to the hearing to present information on his/her behalf.
- b. That he/she may be accompanied by an advisor of his/her choosing during any time that he/she may appear before the board; however, if the advisor is an attorney, the Dean of Students' Office must be notified 48 hours prior to the hearing.
- c. That the student, not the advisor, is responsible for presenting his/her case; therefore, the advisor may not address members of the student conduct board or witnesses of speak during the proceedings.
- d. That he/she shall be permitted to question information presented at the hearing.
- e. That the hearing shall be conducted in accordance with policy set forth in "Conduct Board Hearing Procedures" below.
- f. That any record of the hearing and all documents related to the hearing will be made and kept with the Dean of Students' Office.

A letter of notification shall be emailed according to MSU policy (see OP 91.126: Electronic Communications Student Policy) no less than three (3) days prior to the time designated for the student's appearance before the board, unless a shorter period of notification is acceptable to the student.

## CONDUCT BOARD HEARING PROCEDURES

Conduct Board hearings at Mississippi State University are hearings to arrive at decisions regarding student behavior. These decisions affect the student and his/her relationship with the university. The administration of discipline is an educational process and procedures will be determined by educators. Such procedures will give full cognizance to the tests of fairness and justice, and the requirements of due process. At disciplinary hearings, technical rules/evidence applicable to civil and criminal cases shall not apply. Rules and procedures for conducting disciplinary hearings are as follows:

- a. Conduct board hearings are of a private, confidential nature. They are closed to the public, unless opened by the Dean of Students' Office.
- b. The hearing is presided over by a chair of the hearing body.
- c. The format of a hearing will follow this sequence:
  1. The presiding officer will read the charges

2. A call is made for the plea of the accused to the charges. The accused may plead responsible, not responsible, or no plea.
3. Information will be presented by the University which may include testimony of witnesses and supporting information on the charges. The accused may ask questions of the witnesses present or rebut any information presented.
4. The accused may present a response which may include testimony of witnesses and supporting information.
5. All witnesses will be called separately and may not hear each other's testimony.
6. Examination and questioning by members of the board may follow any witness statement for information presented.
7. The board will go into closed session to decide whether the accused is responsible for a violation of the Code of Student Conduct. This deliberations will be closed to all but the members of the board and representation from the Dean of Students' Office.
8. The accused will be called back into the room and the decision of whether the accused is responsible for a violation of the Code of Student Conduct is announced to all present at the hearing. If the accused is found to be responsible, the accused may make a statement in his/her behalf regarding the sanction.
9. The board will go back into closed session to consider the sanctions. These deliberations will be closed to all but members of the board and representation from the Dean of Students' Office.
10. The board will present a written finding and the recommended sanction(s), if any, to the Dean of Students' Office who will in turn so inform the accused in writing as soon as possible. This recommendation will be used by the Dean of Students' Office in the final determination of sanctions, but ultimately the Dean of Students' Office has sole discretion in the application of sanctions for students, student groups, or student organizations found responsible for violating the Code of Student Conduct.

## DISCIPLINARY RESPONSIBILITY FOR STUDENTS

The Dean of Students, by delegated authority, is assigned the responsibility of receiving and handling all disciplinary matters concerning the behavior of students, student groups, and/or student organizations. The Dean, who has sole discretion, assigns cases based on the type of behavior, status, and case load of various boards. The Dean of Students' Office also has sole discretion in the determination of sanctions for students,

student groups, or student organizations found responsible for violating the Code of Student Conduct.

## SANCTIONS

Violation of the Code of Student Conduct and university regulations will be enforced. If the behavior of a student is such that his or her continuance at the university would be hazardous to others or detrimental to the university, the Dean of Students may, at his or her discretion, temporarily suspend the student until the disciplinary process is complete. Student conduct sanctions are educational in nature. More than one sanction or any combination of sanctions may be imposed for any single violation. The following list is an example of sanctions, however it is not all inclusive of all possible sanctions.

- **Expulsion** - Separation of the student from the university whereby the student is never eligible for readmission to this university.
- **Suspension** - Separation of the student from the university for a defined period of time.
- **Conduct probation** - An official warning that the student's conduct is in violation of the Code of Student Conduct, but is not sufficiently serious to warrant expulsion or suspension. A student on conduct probation may face expulsion or suspension if found responsible for another violation. A student may also be ineligible to represent the university and additional restrictions or conditions may be imposed depending on the nature and seriousness of the misconduct as specified in the sanction.
- **Loss of campus housing** – Removal from university housing for disciplinary reasons.
- **Community service** – A student may have to complete a specified number of community service hours.
- **Restrictions** – The withdrawal of specified privileges for a defined period of time.
- **Restitution** – A payment for financial reimbursement in cases involving loss of or destruction of property or deception.
- **Warning** – Reprimand of a student for actions violating the Code of Student Conduct.
- **Educational Requirements** - A stipulation to complete a specific educational requirement directly related to the violation of the Code of Student Conduct committed. The provision will be clearly defined. Educational requirements may include, but are not limited to, completion of an alcohol or drug education course, an integrity course, essays, reports, etc.

## APPEALS

The student, group, or registered organization being disciplined may petition for an appeal of a decision reached by a conduct board or administrative hearing. A petition for an appeal must be made in writing by the student or student organization to the Dean of Students' Office within a period of five (5) days from the date of notification. A petition for appeal made to the Dean of Students' Office will be reviewed to determine its merit and must be based on one or more of the following reasons:

- a. An error in procedure, which prejudiced the process to the extent that the participant was denied a fundamentally fair hearing as a result of the error. Procedural flaws alone are not grounds for an appeal. Significant procedural errors that may have affected the verdict or sanction will be considered.
- b. The emergence of new evidence that could not have been previously discovered and that, had it been represented at the initial hearing, would have substantially affected the original decision of the hearing body.

The student, group, or organization being disciplined must specify in detail why they believe they are entitled to an appeal. Based on its merit, they request for appeal will be reviewed by the Dean of Students or his or her designee. A request for appeal which does not clearly raise, in writing, one or more of the reasons listed above shall be dismissed without further consideration. The request for appeal shall be limited in its review to the reason or reasons raised in the written appeal. The decision of the Dean of Students or his or her designee, granting or denying the appeal will be in writing. If an appeal is granted, the matter will be moved to the appropriate board which will have full discretion in the determination of responsibility and recommendation of sanctions. Following the notification by the student, group, or organization of the intent to petition for appeal and pending the appeal process, the disciplinary action taken by the university may be stayed unless the Dean of Student' Office has determined in a case involving removal from the university that the continued presence on campus of the charged student, group, or organization poses a continuing danger to person or property or an ongoing threat of disrupting the academic process. The decision to grant or deny the appeal and the outcome of any appeal hearing is final.

## ALCOHOL SANCTIONS

Sanctions for alcohol violations are further defined in OP 91.119 (<http://www.policies.msstate.edu/policypdfs/91119.pdf>), which is intended to provide appropriate developmental/ educational experiences for students who violate MSU's policy regarding alcohol and to support the sections of the Student Code of Conduct which relate to alcohol.

09.119 restates that the unlawful possession, consumption or sale of alcohol on campus violates the Student Code of

Conduct. The following procedure is set forth for alcohol violations under the Student Code of Conduct:

1. A Student who is currently found responsible for an alcohol policy infraction, and who is not on probation for previous alcohol-related infractions, will attend a meeting in the Dean of Students' office in which the student will receive a verbal admonishment and a description of the consequences for future infractions. This meeting will be followed by a letter which contains the same information. In addition, the students may be issued one of the following sanctions:
  - a. The Student may be assigned to an online education class covering the health, safety, academic, and legal consequences of alcohol misuse. Furthermore the student will be required to pass a test on the information provided by the website. The student may also be placed on probation.
  - b. The student may be assigned to attend an alcohol education course as determined by the Dean of Students' office and may be placed on probation.
2. A student who is already on probation for alcohol infractions, and who is currently found responsible for any other alcohol policy infraction, may be suspended for the university.
3. If a student is already on probation for an offense not related to alcohol, and is found responsible for an alcohol infraction, it will be at the discretion of the Dean of Students' office to link the two offenses.
4. If a student is under the age of twenty-one and is found responsible for an alcohol violation, a letter will be sent to the parent/guardian notifying them of the student's violation of Mississippi State University's alcohol policy.
5. If a student is found responsible for an alcohol infraction, that student will pay a fee as decided by the university.

## PARENTAL NOTIFICATION AND PRIVACY

Pursuant to the Family Educational Rights and Privacy Act (FERPA), MSU must maintain as confidential certain education records maintained by the university. However, FERPA provides universities with the option to notify parents/guardians about specific types of information from a student's conduct record. The Office of the Dean of Students provides a letter to parents/guardians advising them of any alcohol or drug violation for students less than 21 years of age.

## STANDARDS OF CONDUCT FOR EMPLOYEES

University employees expect to work in a drug-free environment. The University expects its employees to be free from the effects of alcohol and drugs while on the job or in the workplace. A drug and alcohol policy has been implemented and conducts a testing program pursuant to Sections 71-7-1, et seq., of the Mississippi Code of 1972, Ann., entitled "Drug and Alcohol Testing of Employees" (hereinafter referred to as "the Act"), and all employees are advised of the existence of said Act. The use and abuse of illegal drugs and alcohol is a serious and growing problem throughout the United States. A substance abuse policy and substance abuse testing policy has been implemented in response to concern that the use and abuse of illegal drugs and alcohol by employees in and applicants for certain employment, presents among other things, serious safety and security risks. The Mississippi Legislature has supported the implementation of drug and alcohol free workplace policies by enacting the Act.

MSU policy 60.118-Drug and Alcohol Free Workplace (<http://www.policies.msstate.edu/policypdfs/60118.pdf>) is intended as a vehicle to aid in meeting these expectations. Regulations governing alcohol beverages and illegal drugs, including testing, is included in this policy. An employee that reports to work while under the influence of alcohol or illegal drugs is in violation of this policy. This inappropriate behavior should be reported to the appropriate HRM Generalist in the Department of Human Resources Management.

If an employee believes that he or she has a problem with alcohol or drugs or if substance abuse is causing problems in his or her life, that employee is encouraged to take advantage of the University's Employee Assistance Program (EAP). This program provides counseling and access to external resources. Many of the resources are at no cost to the employee. Additional information on this program is available at <http://hrm.msstate.edu/benefits/eap/>. Additional training materials on drug and alcohol abuse are available for employees and supervisors on the Human Resources web site at <http://hrm.msstate.edu/development/onlinecourses/>.

Applicants and employees who are required to possess a commercial driver's license are subject to additional federal regulations and procedures as listed in University policy 60.121-Controlled Substance and Alcohol Use Testing of Employees with a Commercial Driver's License. Employees working in sensitive positions in grants and contracts funded by the Department of Defense (DOD) or are in positions requiring security clearance are subject to additional federal regulations and procedures as listed in University policy 60.119-Drug Free Workforce (<http://www.policies.msstate.edu/policypdfs/60119.pdf>).

## DISCIPLINARY RESPONSIBILITY FOR EMPLOYEES AND POSSIBLE SANCTIONS

For employees, the disciplinary process is handled through Human Resources Management. Employee sanctions may include, but are not limited to, oral and/or written reprimands, mandatory education programs, performance improvement plans, and termination of employment.

## IT'S THE LAW

Numerous federal, state, and local laws provide for a variety of legal sanctions and penalties for the unlawful possession or distribution of drugs and alcohol. These sanctions include, but are not limited to, incarceration and monetary fines. A summary of Federal Trafficking Penalties provided by the DEA is attached to this report as Exhibit A. Additionally, the Mississippi statutes related to penalties for controlled substances are attached to this report as Exhibit B.

In addition to criminal charges, certain drug convictions may result in loss of federal and financial aid. For additional information about this loss of aid, visit [sfa.msstate.edu/sites/www.sfa.msstate.edu/files/drugconsequences.pdf](http://sfa.msstate.edu/sites/www.sfa.msstate.edu/files/drugconsequences.pdf).

Disciplinary action by the University does not preclude the filing of criminal charges against a student, employee, or guest, nor does the filing of criminal charges prevent the University from taking disciplinary action.

For questions about federal, state, and local laws related to drugs and alcohol, students and employees may contact the Starkville Police Department (662-323-4134), the Meridian Police Department (601-484-6839), the Mississippi Highway Patrol (662-323-5314), the Oktibbeha County Sheriff's Office (662-323-2421), or the local law enforcement agency in their jurisdiction.

## HEALTH RISKS

MSU recognizes and encourages its students, faculty, and staff to recognize that the use, misuse, and abuse of alcohol and other drugs, both legal and illegal, can have serious consequences to health and well-being. Health risks include such problems as behavior changes, impaired judgment and coordination, damage to the liver and brain, respiratory difficulties, insomnia, loss or increase of appetite, illusions and hallucinations, relaxed inhibitions, convulsions, coma, and possible death.

Alcohol and other drugs can lead to psychological and/or physiological dependence and addiction. Information on some of the health risks associated with alcohol is summarized below. More information is available from the Department of Health Promotion and Wellness (<https://www.health.msstate.edu/health/index.php>).

Alcohol is a central nervous system depressant that can impair coordination, inhibitions, self-control, memory, judgment, and reflexes. Large quantities may produce staggering, slurred speech, mood changes, unconsciousness, and possibly death. Prolonged use can damage many organs of the body including the heart, liver, stomach, and pancreas.

Marijuana can increase heart rate, interfere with sexual development, may cause a reduction in male fertility and disrupt the female menstrual cycle. It can increase the risk of disease/damage to the respiratory system, impair hand-eye coordination and other essential functions needed to operate a motor vehicle safely. It can also impair the immune system. Cocaine can cause feelings of depression, inability, impatience and pessimism. It can also cause severe weight loss, anxiety, hallucinations, increased heart rate and blood pressure. Cocaine has caused death by convulsion, failure of the respiratory system, and heart attack.

"Club drugs" such as MDMA (Ecstasy), GHB, LSD, Rohypnol, Ketamine and Methamphetamine can cause serious health problems and possibly death. Many of these drugs are tasteless and odorless. The chemicals, drug sources and pharmacological agents used to manufacture these drugs often vary, making it difficult to determine all of the effects, symptoms and health risks associated with them. Confusion, depression, impaired motor function, amnesia, psychotic behavior, cardiac failure, and permanent neurological and organ damage are some known effects associated with the use of these drugs.

Over-the-counter and prescription drugs can also cause drug tolerance, dependence, and addiction. The potential for misuse and abuse is increased with these drugs as they are more easily obtainable and are safer in terms of ingredients and manufacturing. Misuse and abuse occurs when the user does not follow usage instructions, related to dosage and frequency, and when the drugs are used for self-medication without medical supervision.

Interactions between various drugs, legal and illegal, also may have serious consequences. Various combinations of drugs may work at cross purposes within the body, and the combined effects of two or more drugs may be more potent than the effect of a single drug.

## ALCOHOL AND DRUG PROGRAMMING

Mississippi State University has a program of education designed to help all members of the university community avoid involvement with illegal drugs. Education programs:

1. Provide a system of accurate, current information exchange for students, faculty, and staff on the health risks and symptoms of drug use.
2. Promote and support institutional activity programming that discourages substance abuse.
3. Establish collaborative relationships between community groups, agencies, and the institution for education, treatment, and referral.
4. Provide training programs for students, faculty, and staff to enable them to detect problems related to drug use and to refer persons with these problems to appropriate sources for assistance.
5. Include information about drugs for students and family members in the student orientation programs. The use of prescription and over-the-counter drugs will be addressed.
6. Support and encourage faculty in incorporating education about drugs into the curriculum, where appropriate.
7. Develop a coordinated effort across campus for drug-related education, treatment, and referral.

Educational programs take a number of different formats and range from displays and presentations to lectures and interactive assessments. The following programs occurred or were available during the 2015-16 and 2016-17 academic years.

## PROGRAM DESCRIPTIONS

### LessThanUThink Social Marketing Campaign

LessThanUThink is a student generated, anti-binge drinking social marketing campaign created by advertising and public relations students at The University of Alabama and managed through the student-run firm, The Capstone Agency. The campaign focuses on college campuses and reaches students with humorous messages by emphasizing the negative social consequences of binge drinking. The campaign message was promoted through social media and multiple events across campus throughout October and November 2015. Based on pre-post survey responses (n=185), the LTUT campaign was successful in increasing disapproval of binge drinking (8% increase) and increasing student knowledge of what constitutes binge drinking (11% increase) and increasing awareness of the social consequences of binge drinking (12% increase).

### “Alcohol and You” Presentation

This 30-minute presentation is designed to educate undergraduate students about responsible versus irresponsible alcohol consumption, consequences of irresponsible alcohol consumption, what is happening in the body during a “hangover,” the definition of a standard alcoholic drink, intoxication rate factors, signs of alcohol poisoning, and additional resources for further exploration of personal alcohol use and habits.

The “Alcohol and You” Presentation has been delivered to a widespread number of student groups, and it has been

adapted, added to, and tailored to fit the requested needs of each group. This presentation has been given to classes, Greek groups, residents, and Resident Advisors.

### Goal-Driven Alcohol/Drug Intervention Network (G.A.I.N.) - Alcohol

G.A.I.N. is the Health Promotion and Wellness department’s motivational interviewing program for alcohol use. G.A.I.N. uses a harm reduction approach to alcohol abuse. The goal of G.A.I.N. is to reduce levels for alcohol consumption and negative consequences associated with moderate to high-risk drinking. It is a program designed for any student who wants to learn more about his/her drinking habits and how to avoid possible negative consequences. Participating in G.A.I.N. requires 2 appointments, with each lasting about 30 minutes. In the first appointment, students complete self-report measures about their alcohol use and what they perceive to be the use of other MSU students. The second appointment consists of an individualized motivational interviewing session conducted by a HPW staff member who has been trained in MI techniques. Students may refer themselves to this program, be referred by a campus entity, be required to complete the program as part of a court order, or may complete the program for class extra credit.

### Goal-Driven Alcohol/Drug Intervention Network (G.A.I.N.) - Marijuana

In the fall of 2016, the MSU Dean of Students Office began referring students with marijuana sanctions to the HPW GAIN – Marijuana program. GAIN – Marijuana operates in a similar fashion to GAIN – Alcohol. Students complete an online assessment of their marijuana use and a readiness-to-change questionnaire. One week later, the student meets with the trained HPW staff to review the feedback report generated from their assessment as well as set goals to moderate their marijuana use. The goal of GAIN – Marijuana is to educate students on the effects of marijuana and help them address how marijuana is negatively affecting them. The program also provides realistic strategies to help them reduce and ultimately eliminate marijuana from their life.

### Training for Intervention Procedures (TIPS) University

TIPS is a 2.5 hour program that helps students make sound choices when faced with difficult decisions about alcohol use. It provides students with the knowledge and confidence necessary to reduce high-risk drinking behavior among their peers. TIPS helps students learn decision-making skills and build confidence and interpersonal skills to intervene to prevent alcohol-related incidents. In Summer of 2015, the Department of Health Promotion and Wellness was requested to provide TIPS training to Residence Hall Directors and new athletes. Additionally, as the lead University in the MCPP, MSU hosted a TIPS Train the Trainer training for other faculty and staff of MSU and members of the MCPP.

### Displays – Various Topics

The Health Promotion and Wellness department offers interactive tri-fold displays on various alcohol and drug-related topics throughout the academic year. High-traffic areas are chosen for display locations in order to reach the

most students. Topics are selected based on their relevance; for example, Adderall displays typically occurred around the time of mid-terms and final exams.

### **Responsible Alcohol Use – March 9, 2016 – Spring Break Expo**

Students participated in various activities to learn about alcohol: standard drink sizes, BAC, effects of alcohol, and what to do in the event of alcohol poisoning. Students could select a trivia question from the table or throw a bean bag in a bucket while wearing Drunk Goggles for a color changing standard drink size cup. Literature was also available on a wide variety of alcohol and drug topics to encourage responsible alcohol use when on Spring Break.

### **Screen U Luncheon**

Screen U is a web-based alcohol use screening tool that is brief and personalized to the resources available on the MSU campus. It can be used throughout campus to help raise awareness among students of their individual alcohol use and connect them with relevant resources on MSU's campus based on the responses they provide on the screening. The Luncheon introduced stakeholders throughout MSU and the surrounding community to Screen U.

### **“Alcohol: What You Need to Know” Presentation**

This 30-minute presentation is designed to educate undergraduate students about responsible versus irresponsible alcohol consumption, consequences of irresponsible alcohol consumption, what is happening in the body during a “hangover,” the definition of a standard alcoholic drink, intoxication rate factors, signs of alcohol poisoning, and additional resources for further exploration of personal alcohol use and habits.

The “Alcohol: What You Need to Know” Presentation has been delivered to a widespread number of student groups, and it has been adapted, added to, and tailored to fit the requested needs of each group. This presentation has been given to classes, Greek groups, residents, and Resident Advisors.

### **Marijuana 101 Presentation**

This 30-minute presentation provides an introduction to cannabis including the legality of marijuana, the habitual nature of marijuana use, marijuana's effects on sleep, driving, and academics, and the components of marijuana (THC versus CBD). Lastly, the presentation provides social norming statistics of MSU students to help clarify perceptions MSU students have regarding cannabis use. In addition to the Marijuana 101 presentations that were provided in all Resident Zones and in multiple classrooms, HPW created Marijuana Fact vs. Myth posters and handbills to share with students.

### **What's Your Anti-Drug – January 25, 2017 – National Drug and Alcohol Facts Week**

The “What's your anti-drug?” campaign was part of National Drug and Alcohol Facts Week sponsored by the National Institute on Drug Abuse, part of the National Institutes of Health. The MSU HPW Health Hut set up on the Drill Field on January 25 to give students information on alcohol and

drug facts and an opportunity to share via social media what their anti-drug is. Students were given information on the MSU Counseling Services and HPW's GAIN and ScreenU programs. Over 175 students visited the Health Hut and received a “What's your anti-drug?” t-shirt for participating. Over 35 posts were tagged on social media with #msuantidrug reaching many friends of students to discourage drug abuse and misuse.

### **Protective Behaviors: Alcohol and Other Drugs – March 7 & 8, 2017 – Spring Break Expo**

The Health Promotion and Wellness Department (HPW) – Alcohol and Other Drugs Team provided Mississippi State University (MSU) students with information and resources regarding protective factors for alcohol and other drug use and abuse during Spring Break. All students who stopped by the table received a handout with protective alcohol and other drug use and abuse factors, Spring Break safety tips, the standard alcoholic beverage drink sizes, blood alcohol content, legal drinking age in the United States, and who to call if the students need help. MSU HPW engaged students with the game “Spin the Wheel Alcohol and Other Drug Safety Trivia.” MSU students also had the opportunity to participate in the activity that allows students to try on the “drunk goggles” and attempt to throw a Velcro ball at a target. The “drunk goggles” allow students to witness the negative impacts that alcohol consumption has on one's judgment and motor skills. After students had visited the MSU HPW Alcohol and Other Drugs table at the Safe Spring Break event, students gained a better understanding of the importance of well-being and chose healthier habits related to alcohol and other drugs.

### **Screen U Alcohol, Marijuana, and Prescription Drugs**

Screen U is a web-based screening tool that is brief and personalized to the resources available on the MSU campus. It is used throughout campus to help raise awareness among students of their individual alcohol, marijuana, and/or prescription drug use and connect them with relevant resources on MSU's campus based on the responses they provide on the screening. In the fall, ScreenU was incorporated into the IKnowMaroon series provided by The Student Success department for freshman. Students were given a 3-page document on alcohol information including the link to ScreenU to complete a personal, confidential screening.
